CONFLICT MINERALS STATEMENT

In 2010 the U.S. Dodd-Frank Act was passed concerning the Conflict Minerals originating from mines or smelters located in the Democratic Republic of the Congo (DRC). The rules within the Dodd-Frank Act require the due diligence in the disclosure and reporting of Tin (Sn), Tantalum (Ta), Tungsten (W) and Gold (Au) minerals from conflict affected and high risk areas which are the DRC and the other countries that adjoin the DRC. This statement is to inform Premier Magnetics Incorporated (PM) customers that in closely working with our supplier base and to the best of our knowledge PM complies with the U.S. Dodd-Frank Act for Conflict Minerals. Based on our information and knowledge, the materials used within the manufacturing of our products do not include Tin (Sn), Tantalum (Ta), Tungsten (W) and Gold (Au) that originated from mines or smelters located in the DRC or any of the countries that adjoin the DRC.
