

### Overview

The AUTOMATE® Mini-FAKRA connector series, the latest in automotive interconnect technology, is a space-conscious, high-performance interface central to the next generation of vehicle applications. Supporting up to 20 Gbps data transmission, AUTOMATE connectors reduce installation space requirements by up to 80% compared to previous FAKRA products. Color coded housings provide visual guidance during the assembly process and mechanical keying options prevent mis-mating of connectors.

### **Features and Benefits**

- · Reduced package size, ideal for compact spaces
- · Supports data rates up to 20 GHz
- · Low Engagement Forces
- · Impact Resistant

## **Applications**

- · 360° Surround View Camera
- ECUs and Compute Modules
- Autonomous Vehicles
- · Advanced Driver Assistance Systems (ADAS)
- GPS Navigation
- · 3D Instrument Cluster
- · High Bandwidth Infotainment
- · Remote Start and Vehicle Controls
- V2X Communication

## **Ordering Information**

### **AUTOMATE Type A PCB Connectors**

| Part Number    | Description                            |
|----------------|--|
| FM4-NARP-PCB-1 | Quad Port Right Angle PCB Plug, A Code |
| FM4-NBRP-PCB-1 | Quad Port Right Angle PCB Plug, B Code |
| FM4-NCRP-PCB-1 | Quad Port Right Angle PCB Plug, C Code |
| FM4-NDRP-PCB-1 | Quad Port Right Angle PCB Plug, D Code |
| FM4-NZRP-PCB-1 | Quad Port Right Angle PCB Plug, Z code |

**Note**: See Key Code Chart on reverse side for all available codes. Contact factory for mating assembly information.

## **Custom Solutions**

**AUTOMATE Cable Assemblies** - Application specific solutions designed per customer requirements

**AUTOMATE Sealed Solutions** - Increased protection for harsh environment applications

## **Technical Specifications (Connectors)**

### **Electrical**

| Impedance                       |                | 50 Ω Nominal                      |  |  |
|---------------------------------|----------------|-----------------------------------|--|--|
| Frequency Range                 |                | DC - 9 GHz                        |  |  |
| Return Loss                     |                | 1.12 (-25dB) Max. @ DC - 3 GHz    |  |  |
|                                 |                | 1.22 (-20dB) Max. @ 3 GHz - 6 GHz |  |  |
|                                 |                | 1.67 (-12dB) Max. @ 6 GHz - 9 GHz |  |  |
| Dielectric Withstanding Voltage |                | 750 VRMS                          |  |  |
| Current Rating ≤2A DC           |                | ≤2A DC                            |  |  |
| Contact Resistance              | Center Contact | <5mΩ                              |  |  |
|                                 | Outer Contact  | <5mΩ                              |  |  |

#### Mechanical

| Mating Cycles       | 25 Cycles Min. |
|---------------------|----------------|
| Engagement Force    | ≤50N           |
| Disengagement Force | ≥5N            |

### Environmental

| Temperature Range | -40°C to +105°C             |  |  |
|-------------------|-----------------------------|--|--|
| RoHS              | Compliant with exemption 6C |  |  |

### Materials

| Body           | Zinc Alloy, Matte Tin Plated     |  |  |  |
|----------------|----------------------------------|--|--|--|
| Outer Contact  | Brass, Matte Tin Plated          |  |  |  |
| Center Contact | Copper Nickel Alloy, Gold Plated |  |  |  |
| Housing        | PA4T                             |  |  |  |
| Insulator      | LCP                              |  |  |  |

Note: Technical specifications are typical and may vary by specific part number and design. See component drawing for additional details.
