

Marvell Environmental Compliance Certificate

Marvell is a fabless semiconductor company and relies on our suppliers' good faith efforts to use compliant materials or products provided to Marvell and used in the manufacture of Marvell products. This declaration is based on the analysis of the components and materials used in the manufacture of our products and/or supported by supplier-furnished material declarations and/or lab test results provided by the suppliers. Marvell will NOT be liable for loss of profit, loss of product, loss of use, or any incidental, special, consequential or punitive damages of any sort, arising in connection with non-conformance and/or non-compliance with the Directives or in connection with this certificate.

Marvell hereby declares all our integrated circuit products offerings in accordance with the following environmental requirements:

1) **The RoHS Directive 2011/65/EU and the amendment Directive (EU) 2015/863 restricts the use of ten hazardous substances in electrical and electronic equipment:**

Refer to [Appendix A](#) for the RoHS compliance status

2) **The EU REACH regulates the substances of SVHC:**

See a list released on June 27, 2024, of applicable substances per following link

<https://echa.europa.eu/candidate-list-table>

[Appendix A](#) listed SVHC compliance status, for the substances listed in Appendix A contains SVHCs >1000ppm wt/wt% per article level.

3) **REACH Annex XVII**

No Annex XVII substances above the allowed application in Marvell products.

4) **HALOGEN Free compliant:**

Refer to [Appendix B](#) Environmental Code Guide for Halogen Free compliance status.

5) **Persistent Organic Pollutants (POPs) compliant**

Non-use any of the substances listed in Annexes I and II of POP Regulation (EU) 2019/1021 and (EU)2020/784.

6) **Persistent, bioaccumulative and toxic substances (PBTs) under TSCA section 6(h)**

Non-use any PBTs listed in TSCA section 6(h)

7) **California proposition 65**

Marvell products do contain one or more of California proposition 65 substance(s) without attempting to evaluate the level of exposure, as not all the listed substances provide limit requirements. Marvell believe our products are not harmful when used as normal used and the exposure may be negligible or within the "no significant risk" range.
